## OUNDING EUROPE ON ITS ATTITUDE TOWARD HUERTA

### Administration Seeks to Eliminate Mexico's Dictator

### MINISTERS IN CONFERENCE

Washington Officials Convinced that Provisional President Will Hang On.

Washington, Nov. 3.—Though every official of the United States government at Washington has been cautioned to maintain absolute silence while the plans of the administration for solving the Mexican problem are worked out, it became known from many well-informed sources yesterday that a supreme effort is being made to bring about the retirement of Gen. Victoriano Huerta's retirement from the provisional presidency of Mexico. The success of any plan for the constitutional election that may be proposed especially in so far as it would contemplate participation by the constitutionalists depends, in the view of the United States government, on the elimination of Huerta. Since he promised to turn over the executive power after an election the American government is now waiting for some declaration or signal. Should Huerta retire in favor of another, there is a possibility that the United States may attempt to compose the situation through his successor. But if the elections are declared invalid by Huerta so that he may continue in power the Washington administration, it is pointed out, would look upon such a proclamation as an evidence of the incapacity of the provisional authorities to conduct an election, and might come forth with definite programs to assist in rehabilitating the governmental machinery of the country.

Just now, the future policy of the United States is being plotted and is mainly made known in diplomatic circles abroad and these are intimations that before many days foreign governments generally will have been apprised of the American attitude. It is unlikely that there will be any publication of the American policy until Europe has been formally sounded. What the United States desires is believed is that the powers shall indicate their support of its efforts to solve the problem so that it may approach the Mexico City administration in a final effort to secure the elimination of Huerta. The conference at Vera Cruz between John Lind, President Wilson's personal representative, and the Hungarian, Norwegian and German ministers has not been explained at Washington, but it is thought to be a part of the program of enlisting the support of foreign governments.

Senator Bacon, chairman of the foreign relations committee, conferred with President Wilson at the White House late yesterday but declined to discuss his visit. Asked for his views on the situation in general the Georgia senator said, the one thing needed to insure a peaceful settlement of the Mexican problem was for the governments in Europe to indicate in some positive way that they intended to leave the hands of the United States to the power of the League.
